A UNIQUE PRODUCT KNOWLEDGE WORKSHOP

This is a one-day Workshop for people who are involved in the manufacture, fabrication, selling and end-use of aluminium products.

The Workshop will cover

- The production of aluminium and its alloys
- Production of semi-fabricated products
- Rolled products
- Extrusions
- Castings
- The finishing and joining processes
- Properties and Alloys
- End-Uses
- Recycling
- Sustainability
- Break-out focus groups on relevant subjects

NATIONAL METALFORMING CENTRE

47 Birmingham Road

West Bromwich

COURSE LECTURERS

The Workshop will be run by Roy Woodward and Dr David Harris of Aluminium Advocates.

Between them they have a wealth of experience in company management, quality control, product development, R and D and development of national and international product standards, both in the UK and overseas.

Both Roy Woodward and David Harris have many years of experience in lecturing at UK universities and at professional institutions on behalf of the aluminium industry.
